# SHEARWATER

## AT A GLANCE

SHEARWATER ENERGY RESOURCES INC. Aims to be a fully integrated service provider for the Hydrocarbon, Process, Services, and other industries, it was formed by industry experts with years of international experience under their belts.

We are renowned for our engineering expertise, Maintenance & upgrade, Building & infrastructure and providing solutions to the Materials & Equipment need of our client's supply chain requirements for a cost-effective delivery of projects.

We accomplish this through our selection of nominated colleagues and preferential partners from abroad and the Philippines. This approach allows us to provide solutions through the application of leading industry practices and cutting-edge technologies with our breadth of international experience.

What makes us different, is that we view each project through the eyes of both the project owner and operator. Our team has worked for owner, operator and contractor service teams enabling us to develop a deep understanding of each projects.

We provide fully-integrated solutions that create value for stakeholders through a suite of services tailored to our clients' needs. Ours is a culture of collaboration. We work closely with clients and partners, and implement innovative business practices to support shared outcomes that are based on agreed upon safety, sustainability, cost, productivity measures.

Our work is safe, reliable and cost-effective. Most importantly, we deliver on our promised outcomes and our projects are always implemented with our clients' operational and commercial objectives in mind.
